BIG RETURNS THIS YEAR

Farmers of Dundy, Hitchcock and Red Willow Have Faith in Their Lands.

EXPECT TO RAISE ENORMOUS CROPS

What the So-Called Drouth Stricken District Has Produced in the Past and Prospects for the

Future.

M'COOK, Neb., March 1 .- (Special.)-In Dundy, Hitchcock and Red Willow counties Nebraska, the people are more hopeful and in better condition than might be supposed The beavy rain of this week has put the ground in fine shape for spring seeding. Already farmers are moving back and new ones are coming from Colorado, Iowa and other Horses and cattle are looking fine winter but buffalo grass to eat and the sky for a cover. There will be a large acreage of alfalfa this spring. It seems to be the thing for this country, above all others. At Danbury, a short distance south of McCook, there is 240 acres of alfalfa belonging to the Ashton family that has made them independent. They were offered for their entire crop of last year (two cuttings) \$14,000. This is from good authority. The seed is worth from \$5 to \$6 per bushel, and the straw \$10 per ton. It is unsurpassed for cattle, and hogs go to the stack and eat it like corn and grow fat There was a large quantity grown in the Valley of the Beaver last year, when all other crops failed. The roots penetrate to a great depth, and it withstands drouth in a wonderful manner. Over 300 acres have been sown in the vicinity of McCook.

CHERRY COUNTY'S RELIEF PLAN.

Formation of an Organization at Valentine In attempting to solve the problem of seed grain for the farmers of Cherry county the business men of Valentine have concluded to organize. A meeting was held recently and the Cherry County Seed and Feed Grain association was formed to "provide seed grain for needy farmers, and a systematic manner of paying for the same.' O. L. Ramsey is the president of the asso ciation, E. Sparks, vice president; J. W. Spirk, secretary, and C. H. Cornell, treasurer. The board of directors consists of: O. W. Hahn, J. E. Pettycrew, W. A. Wilson, C. E. Doty, T. F. Kelley, farmers; O. L. Ramsey pastor Methodist Episcopal church; E Sparks, president Cherry County bank; J W. Spirk, manager Minnechaduza mill; C. H Cornell, president Bank of Valentine. The officers of the association have issued a circular letter, in which they say:

omeers or the association have issued a circular letter, in which they say:

It will take about \$10,000 to provide the farmera of this county with seed grain, and on looking the question fairly in the face, our citizens thought one of these alternatives should be adopted—'bond, beg or borrow'—and the question was "Which was the most expedient?" Under a recent enactment of our state legislature counties are allowed to bond for the purpose of securing seed grain, but the time required to comply with the requirements of the law and the uncertainty, under the present financial conditions, as to whether or not our bonds would find a market in time to purchase seed, if at all made this manner look very uncertain.

After having received aid to carry them through the winter, in many instances, and where our farmers have been able to care for themselves, but have not the money with which to make purchase of seed, the idea of asking a gift or donation seemed very distasteful, and no systematic way could be agreed upon to ask people to give us aid.

Our farmers say, "Give us a chance to now hack" At a meeting hold Ealwanner 22.

woman chemist—has made this most valuable of all chemical discoveries.

Mme. Yale personally indorses its action and gives the public her solemn guarantee that it has been tested in In the articles of incorporation of the as-

ociation are embodied the following provions relative to the securing of seed and the manner in which payments for the same the manner in which payments for the same shall be made:

All securities of the association shall be taken in the name of the corporation and shall consist of the approved promissory notes of the stockholders only. Said notes shall bear date of execution and shall be payable on the 15th day of November, 1895, with interest from date at the rate of 7 per cent per annum until maturity, and at the rate of 10 per cent per annum from maturity until paid. Each stockholder shall own stock in the amount of at least 5 cents per bushel for all the grain or other seeds required by him, both for seed and feed, before any action can be taken by the board on his application for a loan, said stock to be attached to his said promissory note and pledged as part security for said loan and assigned to the association as such. The security shall be either personal or chattel, including mortgage on this season's crop, and the board is hereby directed to pass upon the sufficiency of, and reject the same where it thinks the security insufficient, or at its discretion may reduce the amount of the

thinks the security insufficient, or at its discretion may reduce the amount of the loan to better conform to amount of security, or the ability of the association to provide the grain.

As soon as sufficient has been paid on notes to amount to 25 per cent of the amount of stock subscribed, after deduction pressure accessory expenses a divided of

ing necessary expenses, a dividend

that amount shall be declared and paid and repeated when there shall have been another 35 per cent accumulated until 75 per cent of the capital subscribed shall have been returned to the stockholders. On Saturday, two weeks prior to the final meeting of the stockholders at 2 o'clock p. m., after having listed the name and amount of each note remaining unpaid, and published the same for at least two weeks in the county papers, the directors shall sell the same in lump to the highest bidder for cash, after which the amount shall be applied, with any amount on hand in the treasury, to paying the final dividend, and the directors shall make full report of same at stockholders' meeting. Provided, no matter whether or not any dividend has been paid prior to the sale of said notes any moneys in the hands of the treasury, after said sale, after necessary expenses have been paid, shall be divided pro rata per share among the stock then in force.

APPEALED TO TRADERS.

Chicago Operators Again Urged to Donate

Seed to Nebraska Farmers. CHICAGO, March 1 .- The Board of Trade dealers were again appealed to today for aid for the suffering Nebraska farmers. Secretary Stone of the board appeared in the pit at noon and urged the traders to help though many have had nothing this in the loan of seeds to the farmers who are to secure leans by mortgages on the forthcoming crops. Secretary Stone said that the case was urgent and the cause a worthy one, and it is expected that a supply of seeds will soon be in readiness for shipment to the The board committee which has the matter in charge had heard nothing today of the Nebraska relief committee, which was said to have left for Chicago for a conference regarding the needy farmers.

The proposition made by the Board of

Trade and sent to Nebraska bankers was as

follows:

Members of the Chicago Board of Trade and of other business organizations of this city propose, so far as practicable, to provide seed wheat, corn and oats to persons unable to purchase their own supply, and to such persons only, the same to be a loan to be repaid on harvesting the prospective crop, and to be secured by note and mortgage on such crop. We trust that, with the efforts of other organizations and committees, material assistance may be given the drouth-stricken sufferers.

This method has been adopted after deliberation and correspondence with citizens of your state, who have invariably expressed the wish that it be done in this way. To this end, and that the committee appelinted by the Board of Trade may act intelligently, any county needing assistance should organize for the purpose of receiving, distributing and properly handling supplies, and should designate some one railroad station as a receiving and distributing point.

We address you, believing that you are

supplies, and should designate some one railroad station as a receiving and distributing point.

We address you, believing that you are in a position to know the needs of your county, and that you will gladly bring this matter to the attention of your business men and all interested. We assume that such counties as desire this aid will organize, and request that you notify Mr. George F. Stone, secretary of the Board of Trade, not later than March 5 as to the fact of such organization and particulars as to its method of operation, also estimated requirements of grain for its county, and what aid, if any, will be furnished by your state, or from any other source. It is hardly necessary to add that such organization should be of the highest character, and be properly certified to this committee. We have sent a like copy to all the banks of your place.

The above proposition was signed by N. T.

BEAUTIES OF IRRIGATION.

Farmers in the Vicinity of North Louis

Soaking Their Lands Thorough y. NORTH LOUP, Neb., March 1 .- (Special.) number of progressive farmers of this vicinity have already began to soak up their land with water from the irrigating ditch, which the recent mild weather has left in apparently good condition, and their example will soon be followed by a much larger number, if a cold snap does not prevent. While stock, and when grain is delivered our farmers take notes payable November 15, 1895, for amount of same and as notes are baid off return subscribers of stock their pro rata share of same. It is hoped by this means to return at least a large portion of the money advanced from time to time between this and the end of June, 1896. Our between this and the end of June, 1896. Our board is made up of representative citizens, and the utmost pains will be taken to protect every subscriber.

In the criticles of incorporation of the as-fected their decimation or extinction, farmers sult of last season's drouth is a decrease the season, and, if it shall prove that the lack of moisture recently experienced has af-fected their decimation or extinction, farmers

St. Louis Merchants Will Send Aid to the LOUIS, March 1 .- At a joint meeting f members of the Merchants Exchange and Mercantile club action in regard to the appeal of farmers in the drouth stricken districts of western Nebraska, Kansas, western Iowa and South Dakota, has been taken. It was decided that St. Louis, in common with ther cities, should extend to the suffering farmers in those states such assistance as will enable them to put in their crops, and thus be able to provide for themselves during the coming year. It is proposed to raise a fund with which to purchase enough food for the stock, the same to be distributed by local ommittees duly organized and authorized in the various countles, the amounts given to each farmer to be paid for by his note, which will be a first lien on the crop. Committees

ASHTON, Neb., March 1 .- (Special.)-Sherman county people are rejoicing over the ate rains, and many farmers who were alnost too discouraged to attempt farming again, are discussing the means of obtain-ing seed grain, and what is fully as im-portant, feed for their teams while working the crop. So many bills have ben reported there is much diversity of opinion as to what has become of the law. Stock that has "rustled" on the hills entirely all winter looks well. Relief is still being distributed, but were it not for the noble work of the church and the benevolent societies, there would still be terrible suffering among that class, who in ordinary times are prosper ous and will not sign the "pauper papers There is no fear for those who are always ready to pound on the relief car door—they have plenty. To a tenderfoot the courage of these people seems wonderful, but they say they have seen this country yield immense crops with far less labor than "back east," and they expect good times here

Boyd County Seed Bonds Carry BUTTE, Neb., March 1 .- (Special Tele

gram.)-Returns from all preclucts in Boyd county show that the proposition to bond the county for \$10,000 to buy seed grain and feed for teams was carried; \$35 votes were cast, 500 being in favor of and 336 against the proposition. STUART, Neb., March 1.—(Special Telegram.)—The bond election held in this county today to vote on the proposition of issuing

\$50,000 in bonds of the county for the pur-

chase of grain for seed and feed for the farmers, resulted, as far as Stuart township

is concerned, disastrously to the proposition. Out of 174 votes cast, only four were for Cozad Bent on Irrigation. COZAD, Neb., March 1 .- (Special.) - At mass meeting of citizens it was decided to issue a call for an election for the purpose of voting precinct bonds to the amount of \$10, one to be given to the Cozad Irrigation com-pany on condition that said company com-pletes the ditch and laterals on or before May 15 next. Petitions are being circulated and the indications are that the plan will be a

COULD NOT STOP THE FIGHT

Rai'roads Fail to Come to an Agreement Respecting Coal Rates.

TRAFFIC MANAGERS GIVE UP AND GO HOME

Be Adjusted Next Week but on Colorado Coal Hostilities Will Be Continued -Yesterday's Discussions.

After three days' sparring over freight rates on coal in the transmissouri territory the freight people present at the conference, which had been in session since Wednerday. left last night for their homes without having accomplished anything looking to an adjustment of differences.

When the representatives of the traffic spartments of the reveral railroads represented at the meetings met yesterday it was or the purpose of lining up coal rates in Kansas, an agreement having been reached Thursday night just previous to adjournnent. But when the details came to be worked out it was ascertained that no two epresentatives saw the agreement through the same spectacles. They had had twelve hours to think the matter over. The Rock Island people figured on a \$3.25 basis, while the Missouri Pacific insisted that a \$3.75 agreement had been reached. With these livergent views confronting the freight people it was naturally decided that nothing

It was supposed that Kansas rates would be based on \$3.75 from Canon City, which would make a corresponding rate from Rock Springs. This the Denver & Rio Grande would not submit to for a moment and the work of days was dissipated as the dew before the morning sun. Even the Missouri Pacific, which has remained neutral in the matter, felt the stressful condition which a maximum rate of \$3.25 would entail and at once announced that if such a rate obtained it would compel that company to go out of business in territory with Beloit as the center. In other words, it would have to go out of the coal business completely in certain territories in order to protect other portions of the system. The unexpected position of the Missouri Pacific representatives etili further complicated matters and when an adjournnent was taken at noon there was less hope of an agreement being reached than at any ime since the conference began. But the epresentatives decided to meet again at 2 'clock to once more try to harmonize the varied interests, and, then if not successful, to go home.

WAR WILL PROCEED.

At the afternoon session the question of Kansas rates occupied the attention of the railroad representatives and sufficient prog-rers was made to warrant the hope that at the meeting of the Transmissouri Freight Rate committee next week in Kansas City the rates would be restored to the old maxnum or lined up to suit all interests in Kansas territory. But as for Nebraska rates the traffic officials were just as far from an agreement last night when the meeting adjourned without day as a week before the neeting was called.

Pacific will give the benefit of its reduced freight on Hanna and Rock Springs coal to the consumers in Omaha as it has done to points throughout the state. Although this ection has not been agreed upon, it is pretty certain to be considered favorably within a day or two, as the fight on coal begins to narrow down to one between the Union Pa-lific and the Burlington. Mr. Holdrege ought to protect the Sheridan mines, but was knocked out in his efforts at comproand now it looks as if a coal war was in-

It may now be expected that the Union

The consumer is anxious only in having he war continued as long as possible, even if it does not affect rates except on soft

MISSOURI PACIFIC WILL ATTEND.

Notifies Chairman Caldwell a Representatween the western lines and those of the Trunk Line association lasted all of today. Trunk Line association lasted all of today, but nothing whatever was accomplished and the meeting will be resumed tomorrow. The first question to come up was that of commissions and emigrant traffic. It was passed after a short discussion and the matter of the orders of the western lines in the territory of the trunk lines came up. This was also passed after a short discussion, and then the trunk lines asked that the western lines withdraw their Emigrant Clearing House from New York and allow them to handle all the business. The western roads announced that they were not discussed to take the action demanded by the trunk lines, but the advisory committee agreed to take the matter under consideration and will report later. The Canadian Pacific differentials were under discussion when the meeting adjourned. No approach to definite action was taken on any of the matters which came up. It is hardly expected that the meeting will accomplish anything definite tomorrow.

The statement of the earnings of the Burlington road for January shows a large faling off in all departments save one, despite a decrease in operating expenses of \$195,767. The only department which showed an increase was that of mail and miscellaneous earnings, where there was an increase of \$41,552. The gross earnings for January were \$2,254,525, a decrease of \$382,451; operating expenses were \$1,641,69, a decrease of \$195,767. The only department which showed an increase of \$41,552. The gross earnings for January were \$2,254,525, a decrease of \$10,737, a decrease of \$186,537, the deficit for the month was \$185,528, exainst a surplus of \$9,177 for the same anouth of last year.

A rumor was current to lay that John Egan, last second processed to the General Managers, essociation, had been appointed general manager of "a western line." The general opinion was that the road was the Colorado Midland. At the office of the Atchison, however, nothing was known of the appointment. President Robinson is in California and Receiver Walker is in New York, and n out nothing whatever was accomplished and the meeting will be resumed tomor-

Army of Fifty Tramps Terrorize the People of Decatur, Ind. following dispatch from Decatur, Ind.: Fifty

tramps came into the city last night and proceeded to take it by stealing, begging, frightening women away from their homes and taking clothing and edibles. The mayor was appealed to and sent the marshal and a posse of officers to drive out the tramps. They were driven across the railroad bridge, east of town, where they refused to go any further and opened fire on the police with revolvers. The police returned the fire and a battle ensued. The tramps finally fied, carry-ing three of their number, who were either killed or badly wounded. The railroad bridge acted as a shield and is the only thing that saved the police from the tramps' bullets. There is great excitement here this morn-
